

## ADVANCED INDUSTRY 4.0 HARDWARE RENTAL

Try out the advanced industry 4.0 hardware at your location.

### How It Can Help:

Get hands on experience with the latest manufacturing innovations. Speak with authority about the positive impacts these can have on your company.

### Detail Description:

The Utah-MEP has a mobile demonstration lab with the latest in innovative Industry 4.0 devices. Many of these can be rented and tested at your facility. These include robots, 3D scanners, IOT sensors, workstation automation, and other technologies.

### How Much Does it Cost:

Rates vary, but rental periods are typically weekly and monthly

### What Can I Expect:

You will contract with the University of Utah MEP for the use of the items. They can be delivered or picked up.

### How to Get Started:

Simply contact us and we will send over the contract and the items descriptions.

Contact us at [info@utah-mep.org](mailto:info@utah-mep.org) or 801-587-0713
