

FOOD SAFETY: PREVENTIVE CONTROLS (PCQI) CERTIFICATION

How It Can Help

Become a Preventive Controls Qualified Individual (PCQI).

Detailed Description

The FDA's Food Safety Modernization Act required that each FDA-registered food facility have a PCQI-certified designate responsible for developing, overseeing, and managing the organization's food safety plan. The FDA recognizes this course as meeting the requirements to become a Preventive Controls Qualified Individual (PCQI). Individuals completing this training will receive a certificate from the Food Safety Preventive Controls Alliance (FSPCA).

How Much Does It Cost?

\$995/person (includes instruction, text, training materials, and AFDO-registered training certificate). Custom Fit funding support is available to support 40% of eligible companies' course/certification costs, making this training only \$597/person.

What Can I Expect?

Classes run as needed.

Location:

SLCC Miller Free Enterprise Center
9750 South 300 West
Sandy, Utah 84070
